APPI	ENDIX — List of Postdoctoral Programs Available at UdeM	9

Why this guide?

This guide is the essential complement to the <u>Université de Montréal (UdeM) Policy on the Status of Postdoctoral Fellows</u>. It provides useful information to Postdoctoral Fellows such as:

- Practical information about application for a postdoctoral fellowship at UdeM.
- Important information for postdoctoral fellows coming from abroad.
- The list of postdoctoral fellowship programs available at UdeM.

Registering as a postdoctoral fellow with the Graduate and Postdoctoral Studies (ESP) is mandatory for all postdoctoral fellows. Registration benefits include:

- An identification number (*matricule*) to identify yourself with academic and governmental instances.
- An official certification, upon request, of your registration from the ESP.
- Access to library resources and IT services at UdeM.
- A UdeM ID card (carte UdeM).

- b) The fellowship is supervised by a professor who is a UdeM faculty member (the "supervisor").
- c) With the exception of short transition periods, the fellowship may not be conducted under the supervision of the thesis supervisor or co-supervisor.
- d) Due to its preparatory nature for a research career, the postdoctoral fellowship cannot usually extend beyond the fifth year after obtaining the PhD or its equivalent, including internal extensions and internships previously completed in another university institution.
- e) The maximum duration of registration may not exceed that of the supervisor's commitment to remunerating the SPE or the duration of the scholarship for the SPB.
- f) The SPB is dedicated full-time to his fellowship for its entire duration. The SPE may be registered part-time in the manner agreed with his supervisor.
- g) The fellowship involves a variety of research activities, outreach activities and may involve responsibilities in research management, student supervision and participation in teaching. In this case, courses are allocated in accordance with current collective agreements.

4. Application for Admission

All postdoctoral fellows hold a formal appointment at UdeM. The following admission process is followed regardless of funding source.

STEP 1 — COMPLETING THE ONLINE ADMISSION FORM

To be admitted as a postdoctoral fellow, you must first complete an <u>application form</u>. A minimal non-refundable <u>admission fee</u> will apply at the end of the admission process. Note that the system's interface is in French only. A <u>bilingual document</u> to help understand the French form is available.

Deadlines

All applications submitted beyond the following deadlines will be considered for the next term.

For appointment starting between the	Deadline to complete the admission form*
January 1st and April 30th (Winter Term)	15 March
May 1st and August 31st (Summer Term)	15 July
September 1st and December 31st (Fall Term)	15 November

^{*} Of the same calendar year. For example, to be appointed during the winter 2019 term, the deadline is March 15, 2019.

Program selection

On the <u>application form</u>, you will need to indicate the title and number of the fellowship program. It is important to identify the appropriate program title using the <u>list of postdoctoral programs</u> (also found as of page 9 of this document). Your choice of program should match the field of expertise of your fellowship supervisor.

STEP 2 — PREPARING THE REQUIRED DOCUMENTS

Depending on your legal status, different **official documents** must be provided. For documents that are in a language other than French or English, an official translation in French or English is also required. Required documents are listed in the table below:

^{1.} This period may not exceed six months without exception.

	Canadian citizens		For non-C	For non-Canadians	
	born in Canada	born abroad	Permanent residents	Non- residents	
- PhD diploma (or official attestation)	✓	✓	✓	✓	
- Up-to-date résumé (curriculum vitae)	✓	✓	✓	✓	
- Letter of attribution of an external nominative scholarship (SPB only)	✓	✓	✓	✓	
- The online form « <u>Acceptation du stagiaire postdoctoral</u> » duly completed and signed	✓	✓	✓	✓	
- Passport		✓	√	✓	
- Work permit*				✓	

^{*} The work permit may, in some cases, be issued by border services upon arrival at the airport. If so, please refer to Section 6 of this guide. The work permit should be uploaded in your Centre étudiant upon your arrival. In the meantime, you must keep the acknowledgment of receipt of your permit application with IRCC.

The Registrar's Office may also ask you to upload the following documents: Birth certificate, Citizenship certificate, Permanent residency card.

STEP 3 — UPLOADING THE REQUIRED DOCUMENTS

After submitting your online application form, you will receive an email providing you with a *matricule* (usually consisting of eight digits), a temporary login (in the form "pooo") and PIN (UNIP) to access your UdeM portal and Student Center (*Centre étudiant*). With this information, you will be able to upload the required document. For the uploading procedure, please watch this <u>video</u> and visit the <u>Admission website</u>. If you are unable to upload your documents, these should be sent in PDF format to the following address: stagiairespostdoc@umontreal.ca

Documents in a language other than French or English must be accompanied by a translation into French or English certified by the consulate of the country of origin or by a member of l'<u>Ordre des traducteurs</u> terminologues et interprètes agréés du Québec.

Please note that at any time during your stay at UdeM, you may be asked to present the originals or certified copies of all the required documents to verify their authenticity.

5. Confirmation of Admission

After receiving your uploaded documents, the ESP will evaluate your application and issue a decision notice that you can consult by accessing your *Centre étudiant* using your access code and your UNIP. To receive your scholarship or salary, you must provide your academic unit with your UdeM ID number (*matricule*). Following your official registration, you will be able, using your credentials, to create an institutional email account, access certain IT services and obtain a UdeM ID card (*carte UdeM*).

6. Immigration Procedures

The Canadian immigration services, Immigration, Refugees and Citizenship Canada, consider <u>postdoctoral fellowships as work</u>. It is highly recommended that you check with <u>Immigration, Refugees and Citizenship Canada (IRCC)</u> or the <u>Canadian Embassy</u> in your country for procedures regarding obtaining a work permit.

IMPORTANT. Please note the following six points:

- 1) Without a work permit, postdoctoral fellows **may be denied** entry to Canada through immigration services
- 2) Foreign postdoctoral fellows **must plan between three to six months** to obtain a work permit and complete all the formalities related to their stay in Québec.

- 3) The duration of registration as a postdoctoral fellow **cannot exceed** that of the validity of the work permit.
- 4) The ESP is **not authorized** to provide assistance in the application process for a permit to enter Canada. Any questions should be addressed to <u>Immigration</u>, <u>Refugees and Citizenship Canada</u> directly.
- 5) For stays of **not exceeding 120 days**, it is possible, <u>under certain conditions</u>, to <u>be exempted</u> from the obligation to obtain a work permit.
- 6) For stays **longer than 120 days**, please advise the administrative staff of your academic unit so that they initiate the work permit procedure with the IRCC, with an exemption code. This can be initiated **before** receiving a notice of admission from the ESP.

7. Registration

To complete registration, foreign postdoctoral fellows must upload their work permit in their Student centre. Non-resident postdoctoral fellows must claim a valid Social Insurance Number (SIN),² otherwise they will not be able to receive any form of remuneration in Canada.

8. UdeM ID Card

Following the reception of your registration confirmation email, you will need to go in person to the card counter to collect your UdeM identification card at the following address:

Pavillon J.-A.-DeSève
2332, boul. Édouard-Montpetit
3rd floor (Guichet de la carte)
Montréal, QC H3T 1J4

9. Hiring and Pay

SPEs (associate fellows) must contact the administrative staff of their academic unit to finalize the hiring procedures and receive their pay.

10. Medical Insurance

International fellows and new permanent residents must apply for a health insurance card with the <u>Régie de l'assurance-maladie du Québec</u> (RAMQ). Please note that a service charge may be required in order to receive this card. For more information:

425, boul. de Maisonneuve Ouest 3rd floor, office 300 Montréal, QC H3X 2T8 +1 514 864-3411 Métro <u>Place des arts</u> or <u>McGill</u>

It is **highly recommended** that international postdoctoral fellows and new permanent residents subscribe to a basic private medical insurance for the first three months of their stay until they receive their health insurance card. You can buy medical insurance in your country of origin or from private insurance agencies in Canada. Different options can be found on the <u>Ombudman service for Life & Health Insurance website</u>. Please not that the <u>Canadian Association of Postdoctoral Scholars</u> offers the opportunity to join a group insurance plan.

^{2.} A Social Insurance Number (SIN) is essential for working in Canada and receiving government program services. To obtain your SIN, please visit the <u>Social Insurance Number</u> website.

11. Renewals

In the event that your postdoctoral fellowship extends beyond the period initially scheduled, you must submit a request for extension no later than one month before the end of your registration date, so that your request is processed on time. This request can be submitted directly via your <u>student center</u>, by completing the form "CHE_Prolongation_stage".

Before submitting a request for an extension, you must first check whether you meet the following eligibility conditions:

- The <u>Politique sur le statut des stagiaires postdoctoraux de l'Université de Montréal</u> specifies that a postdoctoral fellowship cannot be extended beyond the fifth year following obtaining the doctorate.
- Be recommended by the current internship supervisor and the director of the relevant academic unit (faculty, school, department, program);
- Be a scholarship recipient or be funded by the supervisor or unit for the duration of the internship.

When submitting your online application, you must attach the following documents:

- <u>Postdoctoral fellowship acceptance form</u> fully completed and signed by your supervisor and your home academic unit. Be careful to include only information about your extension.
- For scholarship recipients only: Include a scholarship award letter from an external funding agency (if applicable). This letter should state that the scholarship was obtained on your behalf.
- **For international trainees:** If your immigration documents have been renewed since your last registration, please attach the following documents if applicable to your situation:
 - Proof of renewal of the work permit: your work permit must cover the entire period of the extension. If you are in the process of obtaining a renewal of your work permit, you must provide the acknowledgment of receipt of your renewal request.
 - Passport
 - Permanent residence card

12. Certifications

Registration certificate

You can request registration certificate from Graduate and Postdoctoral Studies (<u>stagiairespostdoc@umontreal.ca</u>). A service fee of \$17 will apply.

Completion fellowship certificate

At the end of your postdoctoral fellowship, upon the recommendation of the professor directing the postdoctoral research and of the chair of the academic or research unit in question, you can request an official Certificate of completion of your Postdoctoral Fellowship issued by the Graduate and Postdoctoral Studies.

To receive this certificate, it is important to request it from the ESPs by completing the form "DIP_Attestation_Stage_postdoc", available in your <u>Student center</u>. You must also complete and include the form Formulaire de recommandation d'attestation de fin de stage postdoctoral.

13. All Through Your Fellowship

It is your responsibility to keep your file up to date at the ESP. We invite you to keep a copy of the documents provided to the FESP. It is important to renew your registration in due time. The Faculty of Graduate and Postdoctoral Studies does not issue reminders for renewal of fellowships.

- In case of a **change of address**, you must register the change in your UdeM portal and notify your Research Unit and UdeM's Human Resources Bureau (for SPEs).
- Before your documents expire, you must apply for renewal of your work permit, permanent resident card and passport. You must provide the ESP with a copy of these documents.
- Postdoctoral fellows working in research centers affiliated with UdeM that are **off campus** (such as Institut de Cardiologie, CRCHUM, CHU Sainte-Justine, Hôpital Maisonneuve-Rosemont, etc.) must also remember to keep their file up to date at the research centre.
- If your status changes from SPE to SPB, please inform us and send us your scholarship award letter.
- In the case of a parental leave following your ph. D. diploma, please inform us and send us a copy of the child's birth certificate so that we extend your eligibility period accordingly.

14. When Your Fellowship Ends

It is **essential** to notify the ESP when your fellowship comes to an end, by sending an email to: stagiairespostdoc@umontreal.ca. You must also inform your academic unit. SPEs must ensure that they provide Human Resources with a postal address and a valid email address.

15. Tax Return

All postdoctoral fellows must complete and submit a tax return. The ESP and UdeM do not provide advice on tax returns. Please consult a professional (accountant, tax specialist) for any tax-related questions. Postdoctoral fellows coming from abroad are responsible for their application for eligibility for the provincial tax exemption and subsequent renewal applications. The ESP does not issue reminders regarding provincial tax exemption renewals. If you have received a tax exemption certificate issued by the MEES, you will need to attach a copy to your income tax return.

Revenu Québec Income Tax Return

CANADIANS AND PERMANENT RESIDENTS

You will find the relevant information on the Revenu Québec website.

INTERNATIONAL FELLOWS

International postdoctoral fellows could benefit from a tax exemption in Quebec if they meet the eligibility criteria of the government. For these conditions, consult the Ministère de l'Éducation's website. Only complete files will be processed. The processing times for applications to the ministry are several months. For information regarding the required documents, contact the ministry directly. The FESP certifies the fellowship and its terms and sends the documents, but cannot guarantee the obtaining of this tax exemption, the granting of which is the sole prerogative of the Government of Quebec.

Filing Taxes with Canada Revenue Agency

Revenues collected by the postdoctoral fellow, directly related to the completion of his fellowship, are considered income and are fully taxable by <u>Canada Revenue Agency</u> (CRA). For tax rates, please consult CRA's website. For SPBs, UdeM does not levy tax on scholarships paid by external organizations. You must therefore have sufficient financial resources to make the payments due (taxes, instalments, etc.).

16. Additional Information

Library and IT Services

Postdoctoral fellows are granted the same benefits that professors and graduate students receive at the <u>UdeM Libraries</u> and <u>Technologies de l'information</u> for the duration of their fellowship

Occupational Integration Seminars

An increasing number of doctoral graduates and postdoctoral fellows will be called upon to pursue careers in private enterprise, government agencies or national and international organizations. In this context, the ESP offer seminars designed to bridge the gap between academic disciplinary training and their possible entry into a first research position outside the academic world. These courses, labeled "IPR," aim to promote professional integration through the acquisition of transversal skills. More information is available on our website.
